# THE IRAQI RED CRESCENT SOCIETY

---

Annual Report 2021

## The Iraqi Red Crescent Society (IRCS)

### 2021 Annual Report

### Summary

We can call 2021 was the worst year for COVID-19 pandemic worldwide in the total case numbers and the death rates including Iraq beside its tremendous negative impact on the socioeconomic state and world economy that may take many years to recover after the end of this pandemic

Despite the fight against the pandemic took a new level with the mass vaccination and personal safety and restriction with lockdowns yet we witness new variants outbreak the latest was Omicrons

Iraq has kept its rank as number one among the Arab countries in its COVID-19 total cases and death rate, that further burden the Iraqi people to endure all the turmoil that affect their country due to corrupted economy, high unemployment rate and major reduction in its quality and quantity in the government public services

The Iraqi Red Crescent Society developed its budget for 2021 based on the availability of the financial resources that are becoming more difficult with the world economy and yet it succeeded in reaching more vulnerable people than anticipated and support more families during many additional disasters like terrorist attacks, flood, droughts, isolation hospital fires and the rising prices of food and essentials due to default of its currency against the USD which was immediate impact on the local markets

In this report we will summarize the Iraqi Red Crescent Society and its partner's activities during 2021 that can demonstrate the extent of reaching out to the vulnerable in different services in parallel with building the national society capacities to accomplish more and better services for Iraqi people and humanity

### The Iraqi Red Crescent Society (IRCS)

The Iraqi Red Crescent Society; is an Independent, volunteer-based National Society that works to alleviate suffering for all. We are also an auxiliary body to public authorities/government when responding to humanitarian needs. However, we maintain our independence from authorities and function as an autonomous, apolitical, nonpartisan organization. Our interventions alleviate the suffering for all, in accordance with the movement's fundamental principles since 1932; we operate inside and outside Iraq, as we are part of the International Movement of the Red Cross Red Crescent and guardian of the international law and treaties

Our Fundamental principles humanity, independence, impartiality, neutrality voluntary services, unity and universality

Our volunteers and staff are part of their local communities and they serve during peace and nature or manmade disaster, our major Programs ranges between Relief, First Aid and health and medical services, water and sanitation (WATSAN), Dissemination of the International Humanitarian Law (IHL), Youth activities, Restoring family links (RFL) and Awareness programs for the war remnant (ERWA) and women community forum.

We aid the public in all ceremonies and public events besides sponsoring youth activities.

IRCS main structure distributed on the 18 governorates including the capital Baghdad, 83 offices, with human power of 11853 volunteers 2400 staff beside our office in Amman

## The Situation in Iraq 2021

- 1) **COVID-19 Pandemic** cases number increased triple than in 2020 as many affected countries  
Iraq total case number in 2020 was 596193 cases jump to 2093740 by the end of 2021 and death rate from 12824 to 24159 people. we faced the 3<sup>rd</sup> wave between Feb 27<sup>th</sup> - Sept. 19<sup>th</sup> and the peak number record was on July 29<sup>th</sup> were we had 13259 cases /day  
Lockdowns and curfews was eased after July 2021 that helped private sector and small business to resume their work for a certain extent  
On march 2021 the Iraqi Ministry of health started vaccination campaign against COVI-19 yet by the end of the year they were able to deliver vaccination to 1/8 of the population of 42 million <sup>1</sup>
- 2) **The Iraqi Economy** had additional blow to socioeconomic status when the government decided to default the Iraqi dinar value to USD by 20% causing rise in the food and essential items prices since we depend on trade and exporting almost all While Iraq's economic conditions are gradually improving as international oil markets recover, this recovery is also fraught by major risks posed by structural bottlenecks, including public investment management constraints that have impacted public service delivery, the slow clearance of arrears (especially those related to public wages), and large exposure of state-owned banks and the central bank to the sovereign. These fragilities are aggravated by fragile political conditions, a weak healthcare system, and rampant corruption that continue to trigger unrest across the country.<sup>2</sup>
- 3) **The Unemployment** rate is 10% due to the mentioned caused above that further burden the Iraqi families
- 4) **Climate Changes** The high deficit in precipitation in some areas of Iraq, in addition to the rising temperature above 50° C for 3 months between July and September and low water supply from neighboring countries, had a negative effect on surface water levels. Causing limit people's access to water for consumption or agriculture. This affected mostly people on the mid-east and the south of the country<sup>3</sup>.
- 5) **Additional Crises** that shook the public to a huge extent due to number of dead, injured people and affected livelihood in addition to the pandemic victims were the IRCS was the first responder and provided its services to all the victims and their families

We can chronologically summarize the major crisis as following: -

1. Terrorist bombing in Baghdad Jan.21<sup>st</sup>
2. Isolation hospital fire incidence in Thi-Qar July 12<sup>th</sup>
3. Terrorist bombing in Baghdad July 19<sup>th</sup>
4. ISIL attack in Diala on 26-27<sup>th</sup> Oct
5. Floods KRG 30<sup>th</sup> Oct. and Dec.17<sup>th</sup>

These crises distributed in different locations inside Iraq with our staff and volunteers networks we were able to reach them immediately and help in evacuation, first aid, ambulance transfer and medical services followed by different relief items including food, nonfood items and psychosocial support and many time we supported the affected families through our cash donations beside some of them even benefited from our different programs that we will mention in this report

The IRCS was able to conduct 10730 activities during 2021 and build its capacities in order to upgrade and develop its services to reach out more vulnerable inside and outside Iraq

In 2021 we reach almost 15M beneficiaries; double what we targeted in our 2021 annual budget and we take the opportunity to appreciate the supports from our partners and cooperation of the federal, local and public authorities.

## The Iraqi Red Crescent Society 2021 Activities

We can summarize the IRCS activities into three major groups based on the department that had the leading role in its services in collaboration with the other departments

- A. Preparedness and Response**
- B. The IRCS Mandate**
- C. The Development and Capacity Building**

### Preparedness and Response

- 1) Disaster Management
- 2) Health And Medical Services
- 3) Watsan

### IRCS Mandate

- 1) Programs
- 2) Women Organization
- 3) Youth

### Development and capacity building

- 1) Information Technology
- 2) Organization Development
- 3) Engineering Department

## A. Preparedness and Response

### 1. The Disaster Management (DM)

The DM department executed many activities during 2021 based on 2020 assessment of the vulnerable families whom affected with the COVID -19 crisis directly and indirectly due to the economic impact in addition to supporting the families whom were victims of terrorist attacks or flooding

The Joint operation task team of the IRCS is leaded by the DM with membership of all the departments to ensure the best preparedness and response in crisis

In cooperation with other departments were able to reach the vulnerable families affected with the climate changes specially the drought

They response to these families based: -

- 2020 survey assessment show a total of 100000families need our support
- During 2021 survey and assessment show increase in vulnerable families with total of 112823 families distributed all over the country
- First responder activities to reach families in crisis as in 2021 terrorist acts, drought and flooding
- In collaboration with the health team during their campaign they also were able to deliver awareness and education of the COVI-19 prevention beside decontamination many public places with spread of aerosols
- Many of the families receive multiple support due to their vulnerability and need assessment
- The DM department supported through its following program 83983 families specially in Ninawa, Erbil, Baghdad and Thi-Qar

## 1.1 Food Security

The IRCS were able to reach vulnerable families as the following table

No.	Item	Total
1.	Food baskets	56622
2.	Bread	31590
3.	25Kg Rice sac	5411
4.	25Kg bean sac	770
5.	Fresh meat (2.5Kg/Family)	27425Kg
6.	Nutrition children bars	25000
7.	Cheese box	5518
8.	Jam	5518

Page | 4

## 1.2 Relief Support

The relief items were distributed to vulnerable families after the flooding and terrorist acts as in the following table

No.	Item	Total
1.	Hygiene set	20785
2.	blankets	8036
3.	Cloth box	3900
4.	Kitchen sets	1485
5.	lanterns	1197
6.	Jerri cans	950
7.	Kerosene heater	286
8.	Thermos	174
9.	Towels	142
10.	Stove	88
11.	Food plastic rolls	86

## 1.3 Cash Support

No	Governorate	Families	Total in IQD	Notes
1.	Ninawa	4273	4697260000	IDP
2.	Erbil	437	419520000	Flooding
3.	Thi-Qar	166	163000000	Isolation hospital fire
4.	Anbar	130	124800000	IDP
5.	Baghdad	255	64585000	Terrorist attacks and vulnerable
6.	Diala	22	21000000	ISIL attacks
7.	Basrah	5	5500000	Vulnerable
Total		5288	5495665000	

## 2. Health and Medical Services

Health department secure different programs to support the vulnerable families with health programs and medical services to ensure safety and wellbeing of the vulnerable people in their daily life and to save lives and prevent diseases during crisis. The health department serve through wide health spectrum with major pillars of first aids, health education and promotion and psychosocial support.

It played major role in peace with crowd gathering and in disaster or conflicts because of its preparedness continues training of its staff and volunteers.

During 2021 the health and medical services provided by this department can be summarized as the following: -

### 2.1 Health Promotion and Education

During the COVID -19 pandemic most of the Health promotion and education was diverted for preventive measures against COVID-19 and promotion of the vaccinations and personal safety through different means including:

- Movie production, printing materials as poster, flyers beside the visual audio as local TV and radio Station, billboard and social media (Facebook, Instagram and twitter accounts) since the beginning of the pandemic till now the IRCS distributed more than 4 million printing materials inside Iraq.
- The IRCS in July 2021 introduced a phone call service (Tabbebuka /your doctor) for medical advice and consultations more than 4200 calls within 140 days' period.
- We also distributed 14500 Hygiene kits to vulnerable families.
- In a total 878610 beneficiaries from the health promotion services.

### 2.2 Psychosocial Support(PSP)

The IRCS health department support all the people on need with psychosocial support regardless their position, gender or age based on the trauma or condition they are facing or affected by. During the COVID-19 pandemic there were many issues that need to be dealt with as:

- Stigma of being infected and the panic among the families
- The grief of the lost ones
- The deterioration of the socioeconomic status
- The terrorist attacks that coincided with the pandemic as in Tayaran square and Saddam city bombing more than 240 the affected families
- The domestic violence rate that increased with the lockdown

Psychosocial support and assurance helped the people to alleviate their state and face their challenges  
Many of these session happened through house visit and face to face talks with the trained volunteers from their own communities and considering the Iraqi culture and traditions  
As an outcome during 2021 the PSP team conducted 1150 activities assisting more than 14412 beneficiaries

## 2.3 First Aid Services and Training

During 2021 the First aid conducted 704 training for different communities and public facilities for dissemination of the first Aid among the public for better reactions during any accident with support of these training with first aid kits

Also they conducted a drill exercise with the civil defense authorities in 4 governorates

Yet in 2021 the IRCS first aid services exceeded 3 .5 million people for the following occasions:

- 2.3.1 **Terrorist attacks** 2 attacks targeted Baghdad in crowded under privileged neighborhood. On Jan 12<sup>th</sup> and July 19<sup>th</sup>. the IRCS provided 18 teams acted for 12 hours in evacuation and first aid to burned, suffocated and wounded people, we also transferred 5 to nearby hospitals
- 2.3.2 **Thi-Qar Hospital fire incidence** on July 12<sup>th</sup> a center for COVID-19 isolation had fire incidence were 92 people died and more than hundred were wounded the IRCS team help with first aid in cases of difficulty in breathing, suffocation, burn and wounded providing first aid and transfer to nearby hospitals. also the team continued with evacuation and debris removal
- 2.3.3 **Crowd management in the different annual occasions** where mass gathering of people.in 5 major occasions During 2021 the IRCS continued its presence and activities to support the families.  
the IRCS health teams provide 11 water tankers carrying disinfectants materials and 25 ambulances to help in evacuation beside the fixed and mobile medical units in to ensure enough services are provided  
as in the following table

No.	Services	Total
1.	First aid	4192615
2.	Disinfectant aerosols	1576763
3.	Health promotion and hygiene	4558511
4.	Personal protective equipments distribution (PPE)	4000
5.	Ambulance and stretchers evacuations	2748
Total		10334637

## 2.4 Evacuation Medical Services (EMS)

The IRCS introduced since 2015 Emergency evacuation service through a fleet of well-equipped ambulances and highly trained paramedics to evacuated all kind of emergency cases medical or surgical and since then the IRCS increased the capacity of this services by adding more ambulances and increased the number of active staff to reach more vulnerable people in peace or crisis with a fleet of 35 ambulances

These teams are highly appreciated by the local communities for their humanity, neutrality and professionalism in their duties In 2021 the EMS are stationed in many locations inside the country which are distant to local hospitals and weak or absent ambulance services

To summarize the EMS activities in 2021 in the following table

No.	Governorate	Location	Number of ambulances	Beneficiaries
1.	Ninawa	Tal-Abttah and Badosh	2	525
2.	Baghdad	Sadder city and Nahrawan	4	1063
3.	Basrah	Saffwan and Al-zubair	2	792
4.	Anbar	Ana'a and Qaim	2	519
Total			10	2899

The rest of the ambulances are covering other activities or prepared for any emergency

## 2.5 Medical Unit (Mobile and Fixed)

Since 2017 the IRCS had added new services to support the families during the Mousel liberation operation with medical services by installing fixed medical units in the camps and supported Ministry of Health Primary health centers with its running cost and medications to ensure better medical services access to vulnerable family, In the same year we added Mobile Medical Units (MMU) that can reach many families despite the security lockdowns or curfews

Since then the IRCS expanded its fleet of MMU to be 10 that are distributed to many locations inside Iraq with their medical teams and medication to reach rural areas with no access to public medical services specially with COVID-19 crisis where the government facilities were overwhelmed with the rising number of COVID-19 cases the following table will explain the distribution of these MMU or the Fixed Mobile Unit and the number of beneficiaries during 2021

No.	Governorate	Medical Unit	Beneficiary
1.	Ninawa	2MMU	37003
		Fixed (Jada' a camp)	17797
2.	Baghdad	2MMU	8700
3.	Thi-Qar & Muthanna	MMU	7383
4.	Basrah	MMU	6324
5.	Karbala 'a & Missan	MMU	6852
6.	Diala	MMU/Ambulance	6104
TOTAL			90163

These medical services were also a port for delivering community based health and family education to the local communities

Most of the cases received are treated on location and are visited regularly yet 143 were transferred to the IRCS hospital for secondary services supported by the IRCS

### 3. WatSan (Water and Sanitation)

Iraq make major part of Mesopotamia; the land that introduce agriculture to civilization due to abundance of water and rich soil yet with decades of mismanagement of its water resources in specific, the drought with or without flood become a trend that are recurrent based on the season. Many agricultural areas are deserted and people find difficulties to access safe water for them and their animals.

The IRCS had supported many areas with potable water through number of installed RO units or water trucking, the Watsan department is responsible to provide this service as well as maintaining these unit, we also supported many schools and governmental medical facilities with addition rehabilitation services of their water and sanitation structure

The Watsan team continue to survey all location and asses their water shortages and number of families beside its infrastructure and continue on annual basis with this task due to growing need to access potable water

Our target to provide 28.3L/ day/person

We will categorize our services in 2021 as in the following titles

#### 3.1 Installment

No.	Governorate	Location	Capacity	Beneficiary
1.	Anbar	Qaim and al-Oubaidy Hospitals	3m <sup>3</sup> /h	100000
2.	Diala	Moqdadia general hospital		252000
		2 villages		252000
3.	Salahaddin	Salahaddin and Samara 'a hospitals		100000
		Al Ebater village		52000
		Add 2 water pumps to Al-Mazra'a project	500m <sup>3</sup> /h	25000
		Install new pipes (610) at Khalafa'a		3000
4.	Ninawa	Ibn Sana'a hospital and Bertella Hospital	3m <sup>3</sup> /h	204281
		4 well units in different villages		329380
5.	Muthanna	2 pumps at Muthanna water facility		200000
Total				1517661

#### 3.2 Rehabilitation of the water supply and maintain spare parts inventory

No.	Governorate	Type	Capacity	Beneficiary
1.	Wasit	3 RO units	Each of 1m <sup>3</sup> /h	129600
2.	Dewanyia	2 RO units	Each 3m <sup>3</sup> /h	48752
3.	Ninawa	One well		650
4.	Thi-qar	3 RO units	0.5-2m <sup>3</sup> /h	84000
5.	Baghdad	8 RO units		160440
6.	Babel	6 RO units		139200
7.	Muthanna	4 RO units		229000
8.	Anbar	2 RO units		100000
9.	Basrah	Rehab Rubat water project		
		2biological stations	220m <sup>3</sup> /h	800/day
		25 Ro Units	1-2m <sup>3</sup> /h	1031696

### 3.3 Rehabilitation of water and sanitations in public facilities

No.	Governorate	Facility	Beneficiaries
1.	Diala	2 schools	
		2 primary health center (PHC)	
2.	Najaf	2 Schools	2000
3.	Kirkuk	2 PHC	500
4.	Salahaddin	13 schools	5000
		60 houses	
5.	Wasit	4PHC	1650
6.	Ninawa	4 schools	9824
		One PHC	2272
7.	Babel	2 schools	1400
8.	Muthanna	One school	3700
		2 PHC	
9.	Basrah	6PHC	5700
		2 Schools	

### 3.4 Health promotion, personal Hygiene and COVID-19 prevention

No.	Governorate	Activity	Beneficiaries
1.	Diala	2 training	50
2.	Duhook	Lectures to local communities	3050
		Training for NGO staff	114
		Hygiene set distribution	2400
3.	Najaf	Lectures to local communities	400
4.	Erbil	Lectures to local communities	500
		Lectures in 5 schools	105
		PPE distribution	1000
		Hygiene set distribution	9360
5.	Karbala'a	Lecture to local communities	135
6.	Kirkuk	Hygiene sets distribution	2500
7.	Missan	Lectures to local communities	1650
		Hygiene set distribution	1000
		64 Trash can distribution	
		15 boxes of trash bags distribution	
8.	Wasit	Lectures to local communities	3500
		Hygiene set distribution	3500
9.	Ninawa	Lectures to local communities	3500
		Hygiene set distribution	12701
		Lectures in 40 schools	31720
		Water canister distribution in 16 schools	13735
10.	Thi-qar	Lectures to students	250
		Hygiene set distribution	150
11.	Babel	Lectures to schools	5000
		Hygiene set distribution	1000
12.	Dewanyia	Health training to volunteers	55
		Lectures to local communities	2673
13.	Anbar	Lectures in 5 schools	210
Total			100258

### 3.5 Water Trucking

Water trucking for Sinjar 500900L /daily for 6 months to 1377 people in Sinjar /Ninawa

COVID -19 PUBLIC SANITATION

Page | 11

With COVI-19 the IRCS teams of DM. Health and WatSan continued their public sanitation campaign with disinfectant aerosols reaching more than 5 million beneficiaries

## B. IRCS Mandate

### 4. The Programs

This department is providing the services through the following mandate Restoring family links (RFL), dissemination and Explosive Ruminant of War Awareness (ERWA)

#### 4.1 Restoring The Family Link (RFL)

Due to long history of wars and conflicts in the past decade with people movements inside and outside the country, families lost connection with their members and we assist them in locating them and open channels for communication in cooperation with the International Committee of the Red Cross (ICRC) and local and governmental authorities and human rights organization

During 2021 the RFL team achieve the following

- Deliver to the ICRC 1955 request of SAR, IRR and IQZ
- Receive 5 reply
- Sustain the communication with the families specially the detainees or missing during the wars or immigration and their rights
- Missing in Iraq-Iran war between 1980-1988 and their fate

#### 4.2 ERWA

Iraq is still high contaminated with UXO or personal landmines due to long history of war and conflict that are distributed unevenly in many locations and are also subjected to landslides or floods making them hazardous to people in the adjacent area specially children

Most dense contaminated areas are the eastern border and the south of the countries. we collaborate with the Ministry of interior, ministry of environment and civil defense in the federal government in delivering awareness and education about the hazard to local communities

During 2021 we provide our services of cooperation and surveying the victims beside the awareness as listed below

No.	Activity	Governorate	Activity	Beneficiaries children
1.	Awareness	Diala and Kut	2250 printing materials distributed	2150
		Missan	Awareness sessions	1347
2.	Victim support	Diwanaia /AL-Wasef village	education	90
3.	Capacity building	Babel , Thi-Qar Ninawa ,Salahaddin and Kirkuk	Communication devices procurement	
		Salahaddin ,Ninawa and Kirkuk	Staff training for victim data collection	
			Safe access training	
4.	Civil defense cooperation	Salahaddin and Ninawa	Hazard triangle distribution	
Total				3587

#### 4.3 Disseminations and International Humanitarian Law (IHL)

The IRCS mandate obligate us to disseminate the IHL and the principle of the movement among local communities and public authorities in order to recognize and respect human rights in peace and war. We grasp every opportunity or gathering to disseminate the human rights. During 2021 teams were able to conduct number of lectures and seminar in that regard and visited many public facilities to educate the staff with the IRCS role in its communities during (Al Hilal Day) as listed below.

No.	Activity	Location	Beneficiaries
1.	4 Lectures to different officer ranks	Military college	201
	Lecture	Ministry of Communication	16
2.	IRCS training	IRCS branches	122
3.	Hilal Day 97 seminars	77 government facilities 10 civil institutes 10 local communities	1425
Total			1764

## 5. Woman Organization

The IRCS mandate to empower the women in their communities and provide them with the power of knowledge, education and livelihood to support themselves and they in return will assistance their families.

During 2021 the women organization built the capacities of its teams and support the women with different programs and included school children with some project that will target more on 2022 budget.

The activities of the woman organization are summarized in the table below.

No.	Governorate	Activity	Title	Beneficiary
1.	Anbar ,Basrah Najaf	Workshop training for IRCS volunteers	Early detection of breast cancer	6289
2.	Baghdad	School children targeting 9 schools	Promotion of personal hygiene ,dental hygiene and COVID-19 prevention	1000
3.	Baghdad ,Ninawa ,Thi-qar, Dewanyia and Babel	Livelihood training	Sewing and provide them with the sewing machine	30
4.	Baghdad	Charity Bazar	College women students	241
		Women sport teams support with their sport equipments		
Total				7560

## 6. Youth

The IRCS started a strong campaign to support the youth in 2021 and will sustain it in the coming years to build strong corner stone for the future. The targeted youth with gender consideration with different level of education and variety of Iraqi population can assist in peace culture and integration of the societies after all the conflicts that struck Iraq in the recent years

During 2021 were 94 activities achieved that mostly involved: -

- Northern governorate Ninawa and Erbil
- Middle governorate Baghdad babel and Karbala
- South governorate dewanyia and Muthanna

The workshop was titled

- Youth leadership
- Community awareness and education
- Youth and peace though sport

The beneficiaries total of 6052 people 4106 men and 1947 women

## C. Development and Capacity Building

### 7. Information Technology

The IRCS strategic plan 2019-2023 included the digitalization of its administrative and financial systems beside its hospitals filing system

Nevertheless, with COVID-19 and personal safety requirement changed all the meetings, messaging and discussion into virtual though different applications that need more upgraded network bandwidths and equipment and staff training to cope with the demand

For both these reason the IRCS –IT team worked to secure safe communication and upgrade the available systems and servers beside training the IRCS staff on utilization of current technology

The 2021 major outcome as listed below/;-

No.	Activity	Technology	Location
1.	Training	IT team on Microsoft team and ZOOM	HQ
		Relation department team use of MS team and zoom	
2.	Installment	Sensory CCT cameras	Major server rooms
		Country Wide network of Phones with VoIP	All IRCS building and facilities
		Wide network with internet	
		With camera and finger print	
		IP Phone and CCT camera	IRCS hospitals
3.	Upgrade and maintain	Satellite Mobile phones	HQ and hospitals
		Cables	
		Communication points	
		Partners offices network	
		Audio system in main meeting hall	
		Server hard from HDD to SSD	
		Photocopy machines	
4.	Software upgrade	Change website to cloud	
		MS profile	
		Email accounts addition	
		Website for the hospitals	
		Cloud archive	
		Data base filing	
		Messaging with social media	
		Website security	
5.	Final foundation	Communication infrastructure	Babel Basra and Mosul branches
		Administrative system	HQ
		Emergency communication room	
6.	Contract	Different local companies for network and software	

### 8. Organization Development

During 2021 continue its role in planning and monitoring the training programs and data and reporting of the IRCS activities to the partners. The IRCS 2022 National society development plan preparation and facilitation of the OCAC phase one evaluation to enhance and strengthen the National society for better services to its vulnerable

## 9. Engineering Department

The IRCS have many building and facilities all over the country that need maintenance, upgrading and adding new ones to serve their purpose and safety of its occupants

Annually the engineering department

- Prepare the assessment
- Design and draw the blue prints
- Finalize all the required licensing and documents
- Bid and Contract the building material and teams for the designated work
- Supervise and monitor the execution phases of the plans

During 2021 the team was able to prepare different locations for construction or rehabilitation and maintained others

- 1) For instance, the maintenance of the electrical generators and cables and different offices.
- 2) Fire alarm system in different buildings of the IRCS
- 3) Rehabilitated offices and hospital rooms and warehouses
- 4) Prepare new office building in different governorates

## Conclusion

The Iraqi Red Crescent society with its partners were able to achieve their target in serving the Iraqi people despite all the challenges of pandemic, climate changes and socioeconomic stages due to solid preparedness to achieve the best response in saving lives and dignity of Iraqi people in any crisis, the IRCS also maintain on developing its capacity to ensure best service to all, we also improve the gender balance in almost all our activities

We as national society of Iraq appreciate all the financial and technical support by our Sister national societies and other movement component partners beside all the humanitarian actors as listed in Alphabetical order

- British Red Cross
- Danish Red cross
- Dutch Red Cross
- French Red Cross
- German Red Cross
- International Committee of Red Cross
- International Federation of Red Cross Red Crescent IFRC
- Iranian Red Crescent
- Japanese government
- Kuwait Red Crescent
- Norwegian Red Cross
- Qatar Red Crescent
- Swedish Red Cross
- Turkish Red Cross
- UNDP
- WHO

We send our deep gratitude to the Ministries and local authorities in the Federal government of Iraq and KRG for their support in facilitation our activities with the aid and support of local communities
